Welcome 505 TRS Students,

Greetings and welcome to Hurlburt Field, Florida and the 505th Training Squadron (505 TRS). Our goal is to provide the training you will need to operate in the air, space and cyberspace command and control (C2) environment and the air operations center weapon system. You will leave here with the tools, knowledge and expertise to perform effectively at the operational level of war. You are now part of a team of C2 warriors and essential to the continued success of the joint warfare team.

The C2 environment is dynamic, and the process is constantly evolving. I encourage your comments to help us make this the best training environment possible. You will be given several opportunities to provide constructive comments, please take the time to respond. Your feedback is a vital part of our efforts to continuously improve our processes for future students.

My staff and I are eager to assist you. Please don't hesitate to contact us with questions or concerns. Again, welcome to the 505 TRS.

Sincerely,

BJORN E. HOLMQUIST, Lt Col, USAF
